Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) OR THIRTY (30) DAYS, WHICHEVER IS LONGER, FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

Art Unit: 3634

1. The preliminary amendment filed on October 13, 2005 has been entered.
2. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

Claims 6 and 7 are rejected under 35 U.S.C. 102(b) as being clearly anticipated by Weber '651. Weber '651 discloses a cover comprising telescopic cover sections 12,13,14 including a roller edge 23,25,26,28 having a wiper 20-22 mounted therein.

3. The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negated by the manner in which the invention was made.

Claims 8 and 9 are rejected under 35 U.S.C. 103(a) as being unpatentable over Weber '651 in view of Kessler. While Weber '651 does not disclose the wiper as having been co-extruded from two different materials, Kessler discloses a cover which teaches the well known method of co-extruding different materials 9,19 wherein, to incorporate this teaching into the cover of Weber '651 so as to obtain the advantages inherent therein such as ease of manufacturing or cost saving purposes would have been obvious to one of ordinary skill in the art.

4. Claims 1-5 are allowed.
5. Claim 10 is objected to as being dependent upon a rejected base claim, but would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims.
6. The following prior art made of record and not relied upon is considered pertinent to applicant's disclosure: Wehler et al '163 and '195, Hennig et al '906 and '929, Loos '578 and '373, Lo '379 and '480, Stohr '917 and '232, Diels, Reynolds, Blank, Loos et al, Steinmetz, Suzuki et al, O'Conner et al, Clay, Brookman et al.
